

**multiview**<sup>®</sup>  
FINANCIAL SOFTWARE

**Multiview ERP unlocks the potential of your Materials Management team, delivering real-time visibility, streamlined procurement, and unparalleled accuracy for finance teams.**

Our solution is tailored to the intricacies of healthcare finance, ensuring operational excellence and regulatory compliance.

## Solution Features:

### INVENTORY MANAGEMENT & ITEM MASTER

Get real-time stock transfers, a universal item master for cross-entity consistency, and simplified reordering in Multiview's Inventory Management & Item Master module.

### WORKFLOW APPROVAL AND AUTOMATION

Multiview's Workflow Approvals and Automation features automated approvals, real-time alerts, and seamless integration with EDI & third-party inventory management systems.

### ACCOUNTING

Multiview's robust accounting module supports seamless audits, inventory control, and multi-entity reporting.

### PURCHASING

Easy PO automation, flexible purchasing strategies, and clear budget tracking for strategic buying in Multiview's Purchasing module.

### REQUISITIONING PROCESS

Multiview ERP ensures visibility throughout the requisition process via seamless merging of stock types and effortless reordering with templates.

### REPORTING

Multiview's Reporting provides real-time data insights and comprehensive item usage and budget analytics.

### BARCODING

Enable real-time scanning and direct transaction recording and get seamless material tracking and immediate data integration.

## Benefits Include:

- ✓ Reduced data entry through seamless EMR integration.
- ✓ Streamlined approval process and workflows.
- ✓ Access to extensive item history and purchase data.
- ✓ Protect data with robust security measures.
- ✓ Real-time visibility and seamless data interaction.
- ✓ Effortless inventory management with automated tracking.
- ✓ Seamless integration with leading inventory management systems.
- ✓ Exceptional care with our in-house support team.

## What Our Clients Say About Us

*"If you're seeking a partner for supply chain management, would be a great organization for your supply chain management. What I love about Multiview ERP is the seamless access to data, the extensive functionality, and the valuable partnership with the team."*

**Philip Fox, Director of Supply Chain, St John's Health**

*"Multiview truly lives up to its name by providing a comprehensive view of the organization from various perspectives. It's user-friendly, offers automated processes, and is easy to learn—no gimmicks, just results."*

**Andrew Garami, Director of Finance, Mt Ascutney Hospital**

*"Very easy to use and customer support is very helpful."*

**Troy P, Director of Accounting**

*"Multiview is a very easy to use system with the ability to load as much detail as you need. The implementation process was the best I've participated in."*

**Janet Carbary, VP of Finance, IRG Physical & Hand Therapy**

## Why Choose Multiview ERP?

### Unlimited Support and Training

At Multiview, we are truly client-obsessed—providing world-class products, change management guidance, and industry-leading client support. Our goal is to be a proactive partner, not just another vendor, offering unlimited support and ongoing assistance.

### Precision Inventory Control with Barcoding

Track supplies accurately, reduce waste, and enhance patient care delivery. Multiview brings clarity to inventory chaos, ensuring the availability of the right resources at all times.

### Seamless Financial Integration

Multiview ERP integrates supply chain and inventory functions for real-time traceability and accurate financial reporting, eliminating manual reconciliation for efficiency.
