

MORE POWER TO YOU:

A Unified EMR + ERP Solution for Healthcare Finance

Hospitals like yours need financial systems that work as seamlessly as your clinical systems. That's why TruBridge and Multiview have partnered to bring an integrated EMR and ERP solution to joint clients — providing the visibility, automation, and accuracy finance leaders need to drive operational success.

Why TruBridge Clients Choose Multiview

High Value, Realistic Costs

Rural and community hospitals deserve modern financial tools, too. Multiview gives you the tools you need to make better, more timely business decisions—without overextending your budget or your team.

A Seamless Integration

Access powerful healthcare financial reporting and accounting automation—without the usual drawbacks of third-party systems. TruBridge EMR + Multiview ERP work together to reduce manual work and improve data visibility.

Exceptional Support During and After Implementation

ERP transitions can be daunting—especially for small teams. Multiview's in-house implementation and support team acts as an extension of your own, and we'll guide you every step of the way.

Efficiency That Drives Results

Cut down month-end close times, eliminate manual AP processing, and gain self-service reporting for department managers, and streamline your materials management — without relying on IT or external consultants.

Purpose-Built For Healthcare

Multiview is built, implemented, and supported by finance experts who know healthcare. With modules that meet the needs of the industry, hospitals can ensure compliance, accuracy, and efficiency.
