FINANCIAL SOFTWARE

Challenges we help resolve

1

STUDENT BILLING

In independent schools, manual billing processes often lead to frustration and confusion for parents and accounting teams, as unclear invoices make payments difficult. However, with Multiview ERP's integration with student billing platforms, visibility is provided to parents and finance teams, enabling easy access to invoices, statements, and direct links to the general ledger. This streamlines the billing process, enhancing transparency and ease of payment for all stakeholders.

2

REPORTING

When wrestling with manual Excel reports, administrative time is drained, errors abound, and there's a lack of drill-down capabilities and cloud-sharing options. Enter Multiview ERP, providing access to robust standard and custom-built reports for quicker, informed decision-making. With native dashboards and effortless cloud-based report sharing, Multiview ERP significantly enhances reporting efficiency and accessibility.

3

FUND ACCOUNTING

In independent schools, tracking donations and intercompany transactions presents challenges, often resulting in a lack of integration and alignment. With Multiview ERP, advanced fund accounting functionality facilitates the tracking of donations, fund-level financials, and seamless integration with the general ledger. This provides comprehensive dashboards and drill-down capabilities, ensuring streamlined management and alignment of financial transactions for enhanced operational efficiency.

4

PAPER & MANUAL GOVERNANCE

Paper-based processes result in inefficiencies, lack of audit trails, and manual approval workflows. Multiview ERP addresses these challenges by offering cloud storage for documents, automated accounts payable email connections, and comprehensive audit trails, ensuring efficient document management and approval processes.

Our Modules

Discover the versatility of Multiview ERP's modules – tailored to optimize your financial operations. Seamlessly handle student fees, gain full-spectrum budget visibility, and drive strategic financial decisions with our versatile modules.

GENERAL LEDGER

Optimize financial management in education with advanced ledger tools designed for this sector. Experience enhanced budget control with integrated, real-time data for accurate financial oversight.

ACCOUNTS PAYABLE

Efficiently handle educational expenditures with streamlined fee management. Utilize automated solutions to simplify both vendor payments and fee collections, facilitating prompt and online payment of educational expenses.

ACCOUNTS RECEIVABLE

Enhance the efficiency of school fee collections with our user-friendly billing system. This setup facilitates rapid online transactions and smooth management of school receivables.

BUDGETING & FORECASTING

Boost financial planning accuracy in education with our advanced, data-centric budgeting tools. These tools enable in-depth analysis of financial data, leading to more precise budget management and control.
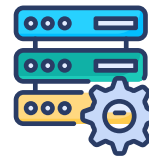

REPORTING & DASHBOARDS

Leverage our dashboards for streamlined educational administration and quick, strategic financial insights. Custom report options enhance clarity in fiscal analysis.

BUSINESS AUTOMATION

Utilize Multiview' ERPs automated workflow to enhance visibility and control over expenditures. Tailor the system to manage requirements, authorizations, and approvals, ensuring both compliance and effective spending management.

INVENTORY MANAGEMENT

Supervise educational resources with our accurate inventory management system. Efficiently handle school assets and supplies through our dedicated inventory management module.
